Work Experience

2nd: - Software Developer

Xperate Systems Pvt. Ltd.

Pune, Maharashtra

December 2022 – Present

Full-Stack Developer: Solo developer responsible for designing and developing both frontend (Angular) and backend (.NET 7) for two company-critical projects:

- **EQuote System:** Created a form to collect client data, generate invoices, and store information in a database. Developed an admin panel for processing invoices, checking duplicates, managing clients, and approving invoices.
- **Payment Posting and Approval:** Built a custom, role-based admin system where employees submit invoice slips for manager approval. Implemented Windows Authentication and designed features based on user roles.

1st: - Software Developer

Siddhatech Software Services Pvt. Ltd.

Pune, Maharashtra

October 2021 - December 2022

Frontend Developer & Automation Tester:

- **Frontend Developer:** Used Angular, HTML, and CSS (Bootstrap) to design and develop user interfaces based on provided design mocks.
- **Automation Tester:** Utilized Cypress (JavaScript) to create automated tests for frontend projects, improving performance and reliability.

Project Experience:

- **MardomGo (Cargo Shipping):** Frontend development with Angular and Cypress automation testing.
- **ART (HRMS Software):** Designed UI in Figma and developed with Vue.js. Features include employee management, timesheets, asset management, and project management.
- **Pagatodo (Finance):** Migrated and optimized code from AngularJS to Vue.js, improving project structure and performance.
- **Estreya (Loan & Banking):** Designed and developed UI in Vue.js, integrating with backend APIs for loan management based on company invoices.
- **Statistics (Online Education Course):** Made UI changes and modifications in WordPress.

Soft Skills

- **Communication:** Clear and concise communication, both written and verbal.
- **Teamwork:** Ability to collaborate effectively with team members and stakeholders.
- **Problem-Solving:** Strong analytical and problem-solving skills, with a focus on finding efficient solutions.
- **Adaptability:** Flexible and adaptable to new technologies and situations.
- **Time Management:** Ability to manage multiple projects and tasks efficiently, meeting deadlines consistently.

Key Responsibilities

- Carry out requirements analysis based on regular client interaction
- Provide full life cycle support to clients through design, coding, testing, debugging, implementation integration and ongoing application support/troubleshooting

Projects

- **Project Name:** Orien Web Solution
Domain: Service Providing Company
Technology Used: HTML, CSS, Angular
URL: <http://orien.in/>

About Project: This project was a simple UI based website which was for a web development company. I have made 3 projects of same design one in Angular second in Vue.js and one in HTML, CSS, JavaScript. You can see the site live on the URL.
